

Index to Volume 32

Index au volume 32

The *Journal of Psychiatry & Neuroscience* is indexed according to the medical subject headings established by the National Library of Medicine, US National Institutes of Health.

The title for each article is followed by a code that designates the article's category. The categories used in this volume are listed below.

La *Revue de psychiatrie & de neuroscience* est indexée par vedette-matière selon la nomenclature de la National Library of Medicine des National Institutes of Health américains.

Chaque titre d'article est suivi d'un code indiquant à quelle catégorie l'article appartient. Les catégories utilisées dans ce volume sont les suivantes:

Brief Report / Rapport sommaire (Brief)

CCNP News and Views / Nouvelles et opinions du CCNP (CCNP)

Editorial / Éditorial (E)

Psychopharmacology for the Clinician / Psychopharmacologie pratique (Psychopharm)

Research Paper / Article de recherche (Res)

Review Paper / Examen critique (Rev)

Subjects / Sujets

-A-

Addictive behaviour

- The 30th annual meeting of the Canadian College of Neuropsychopharmacology (Casey and others) (CCNP) 440
- Adolescent development, Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Res) 30

Adult

- Malondialdehyde levels in adult attention-deficit hyperactivity disorder (Bulut and others) (Brief) 435

Affect

- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Alcoholism

- Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185

Alleles

- Lack of association between the norepinephrine transporter gene and major depression in a Han Chinese population (Chang and others) (Res) 121
- Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185

Alzheimer disease

- The 30th annual meeting of the Canadian College of Neuropsychopharmacology (Casey and others) (CCNP) 440

Amygdala

- Amygdala reactivity to masked negative faces is associated with automatic judgmental bias in major depression: a 3 T fMRI study (Dannlowski and others) (Res) 423
- Dopaminergic regulation of limbic-striatal interplay (Floresco) (Rev) 400
- Neuron somal size is decreased in the lateral amygdalar nucleus of subjects with bipolar disorder (Bezchlibnyk and others) (Res) 203

Animals

- Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30

- Electroconvulsive shock enhances striatal dopamine D₁ and D₃ receptor binding and improves motor performance in 6-OHDA-lesioned rats (Strome and others) (Res) 193
- Of rats and schizophrenia (Boksa) (E) 8
- Vulnerability for apoptosis in the limbic system after myocardial infarction in rats: a possible model for human postinfarct major depression (Wann and others) (Res) 11

Antidepressive agents

- Imaging the serotonin transporter during major depressive disorder and antidepressive treatment (Meyer) (Rev) 86
- The usefulness of large studies in psychopharmacology: understanding their strong points and their drawbacks (Blier) (E) 232
- Using psychostimulants for treating residual symptoms in major depression (Berlim and Turecki) (Psychopharm) 304

Antidepressive agents, tricyclic

- Vulnerability for apoptosis in the limbic system after myocardial infarction in rats: a possible model for human postinfarct major depression (Wann and others) (Res) 11

Antimanic agents

- Effects of valproate on serotonin-induced intracellular calcium mobilization in human platelets (Akimoto and others) (Res) 17

Antipsychotic agents

- Management of conventional antipsychotic-induced tardive dyskinesia (Margolese and Ferreri) (Psychopharm) 72
- Of rats and schizophrenia (Boksa) (E) 8
- The usefulness of large studies in psychopharmacology: understanding their strong points and their drawbacks (Blier) (E) 232

Anxiety disorders

- Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185

Apoptosis

- Vulnerability for apoptosis in the limbic system after myocardial infarction in rats: a possible model for human postinfarct major depression (Wann and others) (Res) 11

Asian continental ancestry group

- Lack of association between the norepinephrine transporter gene and major depression in a Han Chinese population (Chang and others) (Res) 121

Attention

- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Attention deficit disorder with hyperactivity

- Corpus callosum abnormalities in women with borderline personality disorder and comorbid attention-deficit hyperactivity disorder (Rüsch and others) (Res) 417
- Sitting on the edge: when to treat symptoms of inattention without the full DSM-IV criteria of ADHD (Jooper) (Psychopharm) 447
- Malondialdehyde levels in adult attention-deficit hyperactivity disorder (Bulut and others) (Brief) 435

Attention/drug effects

- Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Res) 30

-B-

Behaviour, animal

- Vulnerability for apoptosis in the limbic system after myocardial infarction in rats: a possible model for human postinfarct major depression (Wann and others) (Res) 11

Bipolar disorder

- An event-related functional MRI study of working memory in euthymic bipolar disorder (Lagopoulos and others) (Res) 174
- The long-term impact of treatment with electroconvulsive therapy on discrete memory systems in patients with bipolar disorder (MacQueen and others) (Res) 241
- Is bipolar disorder a mitochondrial disease? (Young) (E) 160
- Neurocognitive function in an extended Afrikaner-ancestry family with affective illness (Savitz and others) (Brief) 116
- Neuron somal size is decreased in the lateral amygdalar nucleus of subjects with bipolar disorder (Bezchlibnyk and others) (Res) 203

Blood platelets

- Effects of valproate on serotonin-induced intracellular calcium mobilization in human platelets (Akimoto and others) (Res) 17
- Platelet serotonin levels support depression scores for women with postpartum depression (Maurer-Spurej and others) (Res) 23

Borderline personality disorder

- [1-123] ADAM and SPECT in patients with borderline personality disorder and healthy control subjects (Koch and others) (Res) 234
- Corpus callosum abnormalities in women with borderline personality disorder and comorbid attention-deficit hyperactivity disorder (Rüsch and others) (Res) 417
- Neuroimaging and genetics of borderline personality disorder: a review (Lis and others) (Rev) 162
- NMDA neurotransmission as a critical mediator of borderline personality disorder (Grosjean and Tsai) (Rev) 103

Brain

- An event-related functional MRI study of working memory in euthymic bipolar disorder (Lagopoulos and others) (Res) 174
- Imaging the serotonin transporter during major depressive disorder and antidepressive treatment (Meyer) (Rev) 86
- In vivo measurements of brain trapping of ¹¹C-labelled α -methyl-L-tryptophan during acute changes in mood states (Perreau-Link and others) (Brief) 430
- Is bipolar disorder a mitochondrial disease? (Young) (E) 160
- Neuroimaging and genetics of borderline personality disorder: a review (Lis and others) (Rev) 162
- NMDA neurotransmission as a critical mediator of borderline personality disorder (Grosjean and Tsai) (Rev) 103

Brain mapping

- Imaging the serotonin transporter during major depressive disorder and antidepressive treatment (Meyer) (Rev) 86

Bulimia nervosa

- The 5HTTLPR polymorphism, prior maltreatment and dramatic-erratic personality manifestations in women with bulimic syndromes (Steiger and others) (Res) 354

-C-**Calcium**

- Effects of valproate on serotonin-induced intracellular calcium mobilization in human platelets (Akimoto and others) (Res) 17

Calmodulin

- Effects of valproate on serotonin-induced intracellular calcium mobilization in human platelets (Akimoto and others) (Res) 17

Cannabis

- Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30
- Visual scan paths in first-episode schizophrenia and cannabis-induced psychosis (Benson and others) (Res) 267

Cannabinoids

- Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30

Carbidopa

- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Central nervous system stimulants

- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129
- Using psychostimulants for treating residual symptoms in major depression (Berlim and Turecki) (Psychopharm) 304

Cerebrovascular incident

- Pharmacological treatment of poststroke pathological laughing and crying (Giacobbe and Flint) (Psychopharm) 384

Child abuse, sexual

- Corpus callosum abnormalities in women with borderline personality disorder and comorbid attention-deficit hyperactivity disorder (Rüsch and others) (Res) 417

Cholesterol

- Changes in serum lipids, independent of weight, are associated with changes in symptoms during long-term clozapine treatment (Procyshyn and others) (Res) 331
- Fatty acid composition in postmortem brains of people who completed suicide (Lalovic and others) (Res) 363

CHRN2 protein, human

- Association of α 4b2 nicotinic receptor and heavy smoking in schizophrenia (Voineskos and others) (Res) 412

Chromatography, high pressure liquid

- Platelet serotonin levels support depression scores for women with postpartum depression (Maurer-Spurej and others) (Res) 23

Clinical trials

- The usefulness of large studies in psychopharmacology: understanding their strong points and their drawbacks (Blier) (E) 232

Clozapine

- Changes in serum lipids, independent of weight, are associated with changes in symptoms during long-term clozapine treatment (Procyshyn and others) (Res) 331

Cognition disorders

- The long-term impact of treatment with electroconvulsive therapy on discrete memory systems in patients with bipolar disorder (MacQueen and others) (Res) 241
- Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30
- Neurocognitive function in an extended Afrikaner-ancestry family with affective illness (Savitz and others) (Brief) 116
- NMDA neurotransmission as a critical mediator of borderline personality disorder (Grosjean and Tsai) (Rev) 103

Confusion

- Onset of confusion in the context of late-life depression (Mulsant) (Psychopharm) 152

Corpus callosum

- Corpus callosum abnormalities in women with borderline personality disorder and comorbid attention-deficit hyperactivity disorder (Rüsch and others) (Res) 417

Cyclohexanols

- Onset of confusion in the context of late-life depression (Mulsant) (Psychopharm) 152

Cytokines

- The 30th annual meeting of the Canadian College of Neuropsychopharmacology (Casey and others) (CCNP) 440

-D-**Depression**

- The 30th annual meeting of the Canadian College of Neuropsychopharmacology (Casey and others) (CCNP) 440
- How to increase serotonin in the human brain without drugs (Young) (E) 394

Depression, postpartum

- Platelet serotonin levels support depression scores for women with postpartum depression (Maurer-Spurej and others) (Res) 23

Depressive disorder, major

- Amygdala reactivity to masked negative faces is associated with automatic judgmental bias in major depression: a 3 T fMRI study (Dannlowski and others) (Res) 423
- Dysfunction in early auditory processing in major depressive disorder revealed by combined MEG and EEG (Kähkönen and others) (Res) 316
- Cortical excitability and rest activity properties in patients with depression (Salustri and others) (Res) 259
- Folate and depression — a neglected problem (Young) (E) 80
- Fatty acid composition in postmortem brains of people who completed suicide (Lalovic and others) (Res) 363
- Imaging the serotonin transporter during major depressive disorder and antidepressive treatment (Meyer) (Rev) 86
- In vivo measurements of brain trapping of ¹¹C-labelled α -methyl-L-tryptophan during acute changes in mood states (Perreau-Link and others) (Brief) 430
- Lack of association between the norepinephrine transporter gene and major depression in a Han Chinese population (Chang and others) (Res) 121
- Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185
- Neurocognitive function in an extended Afrikaner-ancestry family with affective illness (Savitz and others) (Brief) 116
- Neuron somal size is decreased in the lateral amygdalar nucleus of subjects with bipolar disorder (Bezchlibnyk and others) (Res) 203
- Onset of confusion in the context of late-life depression (Mulsant) (Psychopharm) 152
- Using psychostimulants for treating residual symptoms in major depression (Berlim and Turecki) (Psychopharm) 304
- Vulnerability for apoptosis in the limbic system after myocardial infarction in rats: a possible model for human postinfarct major depression (Wann and others) (Res) 11

Dextroamphetamine

- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Dopamine

- Dopaminergic regulation of limbic-striatal interplay (Floresco) (Rev) 400
- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Dopamine antagonists

- Management of conventional antipsychotic-induced tardive dyskinesia (Margolese and Ferreri) (Psychopharm) 72

Drug combinations

- Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Drug synergism

- Folate and depression — a neglected problem (Young) (E) 80

Dyskinesia, drug-induced

- Management of conventional antipsychotic-induced tardive dyskinesia (Margolese and Ferreri) (Psychopharm) 72

Dysthymic disorder

- An event-related functional MRI study of working memory in euthymic bipolar disorder (Lagopoulos and others) (Res) 174

-E-**Electroconvulsive therapy**

- The long-term impact of treatment with electroconvulsive therapy on discrete memory systems in patients with bipolar disorder (MacQueen and others) (Res) 241
- Electroconvulsive shock enhances striatal dopamine D₁ and D₂ receptor binding and improves motor performance in 6-OHDA-lesioned rats (Strome and others) (Res) 193

Electroencephalography

- Auditory processing in schizophrenia during the middle latency period (10–15 ms): high-density electrical mapping and source analysis reveal subcortical antecedents to early cortical deficits (Leavitt and others) (Res) 339
- Dysfunction in early auditory processing in major depressive disorder revealed by combined MEG and EEG (Kähkönen and others) (Res) 316

Electrophysiology

- Dopaminergic regulation of limbic-striatal interplay (Floresco) (Rev) 400

Emotions

- In vivo measurements of brain trapping of ¹¹C-labelled α -methyl-L-tryptophan during acute changes in mood states (Perreau-Link and others) (Brief) 430

Environmental exposure/adverse effects

- Of rats and schizophrenia (Boksa) (E) 8

Epidermal growth factor

- Haloperidol induces the nuclear translocation of phosphatidylinositol 3'-kinase to disrupt Akt phosphorylation in PC12 cells (Dai and others) (Res) 323

Evidence-based medicine

- L-Tyrosine to alleviate the effects of stress? (Young) (Psychopharm) 224

Evoked potentials

- An event-related functional MRI study of working memory in euthymic bipolar disorder (Lagopoulos and others) (Res) 174
- Auditory processing in schizophrenia during the middle latency period (10–15 ms): high-density electrical mapping and source analysis reveal subcortical antecedents to early cortical deficits (Leavitt and others) (Res) 339
- Cortical excitability and rest activity properties in patients with depression (Salustri and others) (Res) 259

Exercise

- How to increase serotonin in the human brain without drugs (Young) (E) 394

-F-**Fatty acids**

- Fatty acid composition in postmortem brains of people who completed suicide (Lalovic and others) (Res) 363

Female

- The 5HTTLPR polymorphism, prior maltreatment and dramatic-erratic personality manifestations in women with bulimic syndromes (Steiger and others) (Res) 354
- Platelet serotonin levels support depression scores for women with postpartum depression (Maurer-Spurej and others) (Res) 23

Folic acid

- Folate and depression — a neglected problem (Young) (E) 80

Food

- How to increase serotonin in the human brain without drugs (Young) (E) 394

Frontal lobe

- Fatty acid composition in postmortem brains of people who completed suicide (Lalovic and others) (Res) 363

-G-**Gene expression**

- Maternal programming of defensive responses through sustained effects on gene expression (Diorio and Meaney) (Rev) 275

Genetics

- Association of α 4b2 nicotinic receptor and heavy smoking in schizophrenia (Voineskos and others) (Res) 412

Genotype

- The 5HTTLPR polymorphism, prior maltreatment and

- dramatic–erratic personality manifestations in women with bulimic syndromes (Steiger and others) (Res) 354
- Lack of association between the norepinephrine transporter gene and major depression in a Han Chinese population (Chang and others) (Res) 121
- Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185
- Gyrus cinguli**
In vivo measurements of brain trapping of ¹¹C-labelled α -methyl-L-tryptophan during acute changes in mood states (Perreau-Link and others) (Brief) 430
- H-**
- Haloperidol**
Haloperidol induces the nuclear translocation of phosphatidylinositol 3'-kinase to disrupt Akt phosphorylation in PC12 cells (Dai and others) (Res) 323
- Happiness**
How to increase serotonin in the human brain without drugs (Young) (E) 394
- Hippocampus**
Dopaminergic regulation of limbic-striatal interplay (Floresco) (Rev) 400
- Hyponatremia**
Onset of confusion in the context of late-life depression (Mulsant) (Psychopharm) 152
- I-**
- Inappropriate ADH syndrome**
Onset of confusion in the context of late-life depression (Mulsant) (Psychopharm) 152
- L-**
- Language disorders**
Empirical evaluation of language disorder in schizophrenia (Stephane and others) (Res) 250
- Levodopa**
Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129
- Lipid metabolism**
Fatty acid composition in postmortem brains of people who completed suicide (Lalovic and others) (Res) 363
- Lipids**
Changes in serum lipids, independent of weight, are associated with changes in symptoms during long-term clozapine treatment (Procyshyn and others) (Res) 331
- M-**
- Magnetic resonance imaging**
An event-related functional MRI study of working memory in euthymic bipolar disorder (Lagopoulos and others) (Res) 174
[1-123] ADAM and SPECT in patients with borderline personality disorder and healthy control subjects (Koch and others) (Res) 234
Amygdala reactivity to masked negative faces is associated with automatic judgmental bias in major depression: a 3 T fMRI study (Dannlowski and others) (Res) 423
Corpus callosum abnormalities in women with borderline personality disorder and comorbid attention-deficit hyperactivity disorder (Rüsch and others) (Res) 417
Is bipolar disorder a mitochondrial disease? (Young) (E) 160
Neuroimaging and genetics of borderline personality disorder: a review (Lis and others) (Rev) 162
- Magnetoencephalography**
Cortical excitability and rest activity properties in patients with depression (Salustri and others) (Res) 259
Dysfunction in early auditory processing in major depressive disorder revealed by combined MEG and EEG (Kähkönen and others) (Res) 316
- Malondialdehyde**
Malondialdehyde levels in adult attention-deficit hyperactivity disorder (Bulut and others) (Brief) 435
- Marijuana abuse**
Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30
- Maternal behavior**
Maternal programming of defensive responses through sustained effects on gene expression (Diorio and Meaney) (Rev) 275
- Memory disorders**
An event-related functional MRI study of working memory in euthymic bipolar disorder (Lagopoulos and others) (Res) 174
The long-term impact of treatment with electroconvulsive therapy on discrete memory systems in patients with bipolar disorder (MacQueen and others) (Res) 241
NMDA neurotransmission as a critical mediator of borderline personality disorder (Grosjean and Tsai) (Rev) 103
Onset of confusion in the context of late-life depression (Mulsant) (Psychopharm) 152
- Memory, short term/drug effects**
Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30
- Methylphenidate**
Sitting on the edge: when to treat symptoms of inattention without the full DSM-IV criteria of ADHD (Joobor) (Psychopharm) 447
- Mitochondrial diseases**
Is bipolar disorder a mitochondrial disease? (Young) (E) 160
- Molecular biology**
The 30th annual meeting of the Canadian college of neuropsychopharmacology (Casey and others) (CCNP) 440
- Monoamine oxidase**
Amine oxidases and their inhibitors: What can they tell us about neuroprotection and the development of drugs for neuropsychiatric disorders? (Baker and others) (E) 313
Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185
- Mood disorders**
Pharmacological treatment of poststroke pathological laughing and crying (Giacobbe and Flint) (Psychopharm) 384
- N-**
- N-Methylaspartate**
NMDA neurotransmission as a critical mediator of borderline personality disorder (Grosjean and Tsai) (Rev) 103
- Neuroprotective agents**
Amine oxidases and their inhibitors: What can they tell us about neuroprotection and the development of drugs for neuropsychiatric disorders? (Baker and others) (E) 313
- Nicotine**
Association of α 4b2 nicotinic receptor and heavy smoking in schizophrenia (Voineskos and others) (Res) 412
- Nicotinic acetylcholine receptor alpha4 subunit**
Association of α 4b2 nicotinic receptor and heavy smoking in schizophrenia (Voineskos and others) (Res) 412
- Nucleus accumbens**
Dopaminergic regulation of limbic-striatal interplay (Floresco) (Rev) 400

-O-**Oxidative stress**

Malondialdehyde levels in adult attention-deficit hyperactivity disorder (Bulut and others) (Brief) 435

-P-**Parkinsonian disorders**

Electroconvulsive shock enhances striatal dopamine D₁ and D₃ receptor binding and improves motor performance in 6-OHDA-lesioned rats (Strome and others) (Res) 193

Phenelzine

Amine oxidases and their inhibitors: What can they tell us about neuroprotection and the development of drugs for neuropsychiatric disorders? (Baker and others) (E) 313

Phenotype

Neurocognitive function in an extended Afrikaner-ancestry family with affective illness (Savitz and others) (Brief) 116

Phenylalanine

Mood-elevating effects of *d*-amphetamine and incentive salience: the effect of acute dopamine precursor depletion (Leyton and others) (Res) 129

Phospholipids

Haloperidol induces the nuclear translocation of phosphatidylinositol 3'-kinase to disrupt Akt phosphorylation in PC12 cells (Dai and others) (Res) 323

Phototherapy

How to increase serotonin in the human brain without drugs (Young) (E) 394

Positron emission tomography

In vivo measurements of brain trapping of ¹¹C-labelled α -methyl-L-tryptophan during acute changes in mood states (Perreau-Link and others) (Brief) 430

Imaging the serotonin transporter during major depressive disorder and antidepressive treatment (Meyer) (Rev) 86

Neuroimaging and genetics of borderline personality disorder: a review (Lis and others) (Rev) 162

Protein Kinase c

Effects of valproate on serotonin-induced intracellular calcium mobilization in human platelets (Akimoto and others) (Res) 17

Psychopharmacology

Pharmacological treatment of poststroke pathological laughing and crying (Giacobbe and Flint) (Psychopharm) 384

Sitting on the edge: when to treat symptoms of inattention without the full DSM-IV criteria of ADHD (Joober) (Psychopharm) 447

The usefulness of large studies in psychopharmacology: understanding their strong points and their drawbacks (Blier) (E) 232

Psychoses

Visual scan paths in first-episode schizophrenia and cannabis-induced psychosis (Benson and others) (Res) 267

Psychotic disorders

The 30th annual meeting of the Canadian college of neuropsychopharmacology (Casey and others) (CCNP) 440

-R-**Rats**

Electroconvulsive shock enhances striatal dopamine D₁ and D₃ receptor binding and improves motor performance in 6-OHDA-lesioned rats (Strome and others) (Res) 193

Of rats and schizophrenia (Boksa) (E) 8

Vulnerability for apoptosis in the limbic system after myocardial infarction in rats: a possible model for human postinfarct major depression (Wann and others) (Res) 11

Receptors, dopamine 1

Electroconvulsive shock enhances striatal dopamine D₁ and D₃ receptor binding and improves motor performance in 6-OHDA-lesioned rats (Strome and others) (Res) 193

Receptors, dopamine 2

Monoamine oxidase-A polymorphisms might modify the association between the dopamine D₂ receptor gene and alcohol dependence (Huang and others) (Res) 185

Receptors, dopamine 3

Electroconvulsive shock enhances striatal dopamine D₁ and D₃ receptor binding and improves motor performance in 6-OHDA-lesioned rats (Strome and others) (Res) 193

Receptors, nicotinic

Association of α 4b2 nicotinic receptor and heavy smoking in schizophrenia (Voineskos and others) (Res) 412

Risk factors

Of rats and schizophrenia (Boksa) (E) 8

-S-**Schizophrenia**

Association of α 4b2 nicotinic receptor and heavy smoking in schizophrenia (Voineskos and others) (Res) 412

Auditory processing in schizophrenia during the middle latency period (10–15 ms): high-density electrical mapping and source analysis reveal subcortical antecedents to early cortical deficits (Leavitt and others) (Res) 339

Cannabis and cognitive dysfunction: parallels with endophenotypes of schizophrenia (Solowij and Michie) (Rev) 30

Empirical evaluation of language disorder in schizophrenia (Stephane and others) (Res) 250

Of rats and schizophrenia (Boksa) (E) 8

Visual scan paths in first-episode schizophrenia and cannabis-induced psychosis (Benson and others) (Res) 267

Schizophrenia, paranoid

Management of conventional antipsychotic-induced tardive dyskinesia (Margoese and Ferreri) (Psychopharm) 72

Serotonin

The 5HTTLPR polymorphism, prior maltreatment and dramatic-erratic personality manifestations in women with bulimic syndromes (Steiger and others) (Res) 354

[1-123] ADAM and SPECT in patients with borderline personality disorder and healthy control subjects (Koch and others) (Res) 234

Effects of valproate on serotonin-induced intracellular calcium mobilization in human platelets (Akimoto and others) (Res) 17

Folate and depression — a neglected problem (Young) (E) 80

How to increase serotonin in the human brain without drugs (Young) (E) 394

Imaging the serotonin transporter during major depressive disorder and antidepressive treatment (Meyer) (Rev) 86

In vivo measurements of brain trapping of ¹¹C-labelled α -methyl-L-tryptophan during acute changes in mood states (Perreau-Link and others) (Brief) 430

Platelet serotonin levels support depression scores for women with postpartum depression (Maurer-Spurej and others) (Res) 23

Serotonin uptake inhibitors

Pharmacological treatment of poststroke pathological laughing and crying (Giacobbe and Flint) (Psychopharm) 384

Stress, psychological

L-Tyrosine to alleviate the effects of stress? (Young) (Psychopharm) 224

Maternal programming of defensive responses through sustained effects on gene expression (Diorio and Meaney) (Rev) 275

Suicide

Fatty acid composition in postmortem brains of people who completed suicide (Lalovic and others) (Res) 363
