

Index to Volume 34

The *Journal of Psychiatry & Neuroscience* is indexed according to the medical subject headings established by the National Library of Medicine, US National Institutes of Health.

The title for each article is followed by a code that designates the article's category. The categories used in this volume are listed below.

La *Revue de psychiatrie & de neuroscience* est indexée par vedette-matière selon la nomenclature de la *National Library of Medicine* des *National Institutes of Health* aux États-Unis.

Chaque titre d'article est suivi d'un code indiquant à quelle catégorie l'article appartient. Les catégories utilisées dans ce volume sont les suivantes:

Brief Report (Brief)
CCNP News and Views (CCNP)
Commentary (C)
Editorial (E)
Psychopharmacology for the Clinician (Psychopharm)
Research Paper (Res)
Review Paper (Rev)

Subjects

-A-

Acoustic stimulation

Increased whole-body auditory startle reflex and autonomic reactivity in children with anxiety disorders (Bakker and others) (Res) 314

Adaptor proteins, signal transducing

Positive association between the *PDLIM5* gene and bipolar disorder in the Chinese Han population (Zhao and others) (Res) 199

Aged

Depressive symptoms and brain volumes in older adults: a longitudinal magnetic resonance imaging study (Dotson and others) (Res) 367

Aging

A meta-analysis examining clinical predictors of hippocampal volume in patients with major depressive disorder (McKinnon and others) (Res) 41

AIDS

NeuroAIDS: a watershed for mental health and nervous system disorders (McCombe and others) (E) 83

Alcoholism

Alcohol dependence-related increase of glial cell density in the anterior cingulate cortex of suicide completers (Hercher and others) (Res) 281
Latent deleterious effects of binge drinking over a short period of time revealed only by electrophysiological measures (Maurage and others) (Res) 111

Alzheimer disease

Association of total tau and phosphorylated tau 181 protein levels in cerebrospinal fluid with cerebral atrophy in mild cognitive impairment and Alzheimer disease (Thomann and others) (Res) 136
Should we treat patients with mild Alzheimer disease with a cholinesterase inhibitor? (Gauthier) (Psychopharm) 480

Amygdala

Amygdala and insula response to emotional images in patients with generalized social anxiety disorder (Shah and others) (Res) 296

Genotype over diagnosis in amygdala responsiveness: affective processing in social anxiety disorder (Furmark and others) (Res) 30

Hippocampus and amygdala volumes in patients with borderline personality disorder with or without posttraumatic stress disorder (Schmahl and others) (Res) 289

Reduced amygdala and hippocampus size in trauma-exposed women with borderline personality disorder and without posttraumatic stress disorder (Weniger and others) (Brief) 383

Animals

Cascading effects of stressors and inflammatory immune system activation: implications for major depressive disorder (Anisman) (Rev) 4

Effects of gut microbiota on the brain: implications for psychiatry (Neufeld and Foster) (C) 230

Effects of sustained serotonin reuptake inhibition on the firing of dopamine neurons in the rat ventral tegmental area (Dremencov and others) (Res) 223

Enhancement of the function of rat serotonin and norepinephrine neurons by sustained vagus nerve stimulation (Manta and others) (Res) 272

Glutamate and dopamine components in schizophrenia (Seeman) (C) 143

Has the time come for clinical trials on the antidepressant effect of vitamin D? (Young) (E) 3

Moving past the "neuroncentric" perspective: a role for glia in neuropsychiatric disorders (Lai and others) (E) 173

Anisotropy

Neuregulin 1 genetic variation and anterior cingulum integrity in patients with schizophrenia and healthy controls (Wang and others) (Res) 181

Anorexia nervosa

Serum brain-derived neurotrophic factor and peripheral indicators of the serotonin system in underweight and weight-recovered adolescent girls and women with anorexia nervosa (Ehrlich and others) (Res) 323

Antidepressive agents

Acute effects of repetitive transcranial magnetic stimulation on attentional control are related to antidepressant outcomes (Vanderhasselt and others) (Res) 119

Bariatric surgery in patients with bipolar disorder: an emerging issue (Taylor and Misra) (Psychopharm) 336

Cortical folding in patients with bipolar disorder or unipolar depression (Penttilä and others) (Res) 127

Has the time come for clinical trials on the antidepressant effect of vitamin D? (Young) (E) 3

Optimal use of antidepressants: When to act? (Blier) (Psychopharm) 80

Predictors of nonresponse to cognitive behavioural therapy or venlafaxine using glucose metabolism in major depressive disorder (Konarski and others) (Res) 175

Antigens

Positive association of the pericentrin (*PCNT*) gene with major depressive disorder in the Japanese population (Numata and others) (Res) 195

Antimanic agents

Bariatric surgery in patients with bipolar disorder: an emerging issue (Taylor and Misra) (Psychopharm) 336

Cortical folding in patients with bipolar disorder or unipolar depression (Penttilä and others) (Res) 127

Antioxidants

3-Nitrotyrosine and glutathione antioxidant system in patients in the early and late stages of bipolar disorder (Andreazza and others) (Res) 263

Antipsychotic agents

- A translational research approach to poor treatment response in patients with schizophrenia: clozapine-antipsychotic polypharmacy (Honer and others) (Rev) 433
- Do serum lipids predict response to clozapine treatment? (Procyshyn and others) (Psychopharm) 168
- Emotion-elicited gamma synchrony in patients with first-episode schizophrenia: a neural correlate of social cognition outcomes (Williams and others) (Res) 303
- Neural synchrony in patients with a first episode of schizophrenia: tracking relations with grey matter and symptom profile (Williams and others) (Res) 21

Anxiety

- Latent deleterious effects of binge drinking over a short period of time revealed only by electrophysiological measures (Maurage and others) (Res) 111

Anxiety disorders

- Amygdala and insula response to emotional images in patients with generalized social anxiety disorder (Shah and others) (Res) 296
- Genotype over diagnosis in amygdala responsiveness: affective processing in social anxiety disorder (Furmark and others) (Res) 30
- Increased whole-body auditory startle reflex and autonomic reactivity in children with anxiety disorders (Bakker and others) (Res) 314

Atrophy

- Association of total tau and phosphorylated tau 181 protein levels in cerebrospinal fluid with cerebral atrophy in mild cognitive impairment and Alzheimer disease (Thomann and others) (Res) 136

Attention

- Acute effects of repetitive transcranial magnetic stimulation on attentional control are related to antidepressant outcomes (Vanderhasselt and others) (Res) 119

Attention deficit disorder with hyperactivity

- Candidate genes and neuropsychological phenotypes in children with ADHD: review of association studies (Kebir and others) (Rev) 88
- Candidate genes involved in neural plasticity and the risk for attention-deficit hyperactivity disorder: a meta-analysis of 8 common variants (Forero and others) (Res) 361

-B-**Bariatric surgery**

- Bariatric surgery in patients with bipolar disorder: an emerging issue (Taylor and Misra) (Psychopharm) 336

Bipolar disorder

- 3-Nitrotyrosine and glutathione antioxidant system in patients in the early and late stages of bipolar disorder (Andreazza and others) (Res) 263
- Bariatric surgery in patients with bipolar disorder: an emerging issue (Taylor and Misra) (Psychopharm) 336
- Cortical folding in patients with bipolar disorder or unipolar depression (Penttilä and others) (Res) 127
- Positive association between the *PDLIM5* gene and bipolar disorder in the Chinese Han population (Zhao and others) (Res) 199
- Visual sensory processing deficits in patients with bipolar disorder revealed through high-density electrical mapping (Yeap and others) (Res) 459

Body weight

- Serum brain-derived neurotrophic factor and peripheral indicators of the serotonin system in underweight and weight-recovered adolescent girls and women with anorexia nervosa (Ehrlich and others) (Res) 323

Borderline personality disorder

- Emotional learning during dissociative states in borderline

- personality disorder (Ebner-Priemer and others) (Res) 214
- Hippocampus and amygdala volumes in patients with borderline personality disorder with or without posttraumatic stress disorder (Schmahl and others) (Res) 289
- Reduced amygdala and hippocampus size in trauma-exposed women with borderline personality disorder and without posttraumatic stress disorder (Weniger and others) (Brief) 383

Brain chemistry

- Effects of overnight sleep restriction on brain chemistry and mood in women with unipolar depression and healthy controls (Bernier and others) (Res) 352

Brain-derived neurotrophic factor

- Serum brain-derived neurotrophic factor and peripheral indicators of the serotonin system in underweight and weight-recovered adolescent girls and women with anorexia nervosa (Ehrlich and others) (Res) 323

Brain mapping

- Alterations in default network connectivity in posttraumatic stress disorder related to early-life trauma (Bluhm and others) (Res) 187
- Functional atlas of emotional faces processing: a voxel-based meta-analysis of 105 functional magnetic resonance imaging studies (Fusar-Poli and others) (Rev) 418
- Magnetic resonance imaging and prediction of outcome in patients with major depressive disorder (MacQueen) (Rev) 343
- On the neurobiology of hallucinations (Boksa) (E) 260
- Structural covariance in the hallucinating brain: a voxel-based morphometry study (Modinos and others) (Brief) 465
- Visual sensory processing deficits in patients with bipolar disorder revealed through high-density electrical mapping (Yeap and others) (Res) 459

Bulimia nervosa

- Impact of acute tryptophan depletion on mood and eating-related urges in bulimic and nonbulimic women (Bruce and others) (Res) 376

-C-**Canadian College of Neuropsychopharmacology**

- The 31st Annual Meeting of the Canadian College of Neuropsychopharmacology (Flores and others) (CCNP) 66

Cerebellum

- High-frequency repetitive transcranial magnetic stimulation to the cerebellum and implicit processing of happy facial expressions (Schutter and others) (Brief) 60

Cerebral cortex

- Amygdala and insula response to emotional images in patients with generalized social anxiety disorder (Shah and others) (Res) 296
- Cortical folding in patients with bipolar disorder or unipolar depression (Penttilä and others) (Res) 127
- Expression profiles of schizophrenia susceptibility genes during human prefrontal cortical development (Choi and others) (Res) 450

Child

- Candidate genes and neuropsychological phenotypes in children with ADHD: review of association studies (Kebir and others) (Rev) 88

China

- Positive association between the *PDLIM5* gene and bipolar disorder in the Chinese Han population (Zhao and others) (Res) 199

Cholesterol

- Do serum lipids predict response to clozapine treatment? (Procyshyn and others) (Psychopharm) 168

Cholinesterase inhibitors

- Should we treat patients with mild Alzheimer disease with a cholinesterase inhibitor? (Gauthier) (Psychopharm) 480

Clozapine

A translational research approach to poor treatment response in patients with schizophrenia: clozapine–antipsychotic polypharmacy (Honer and others) (Rev) 433

Cognition

Emotion-elicited gamma synchrony in patients with first-episode schizophrenia: a neural correlate of social cognition outcomes (Williams and others) (Res) 303

Cognition disorders

Association of total tau and phosphorylated tau 181 protein levels in cerebrospinal fluid with cerebral atrophy in mild cognitive impairment and Alzheimer disease (Thomann and others) (Res) 136

Cognitive therapy

Predictors of nonresponse to cognitive behavioural therapy or venlafaxine using glucose metabolism in major depressive disorder (Konarski and others) (Res) 175

Conferences

Rethinking scientific meetings: an imperative in an era of climate change (Young) (E) 341

Conflict of interest

Bias in the research literature and conflict of interest: an issue for publishers, editors, reviewers and authors, and it is not just about the money (Young) (E) 412

Counselling

Treatment of comorbid tobacco use in people with serious mental illness (Lising-Enriquez and George) (Psychopharm) 256

Cytokines

Cascading effects of stressors and inflammatory immune system activation: implications for major depressive disorder (Anisman) (Rev) 4

-D-**Depressive disorder**

Acute effects of repetitive transcranial magnetic stimulation on attentional control are related to antidepressant outcomes (Vanderhasselt and others) (Res) 119

Cortical folding in patients with bipolar disorder or unipolar depression (Penttilä and others) (Res) 127

Depressive symptoms and brain volumes in older adults: a longitudinal magnetic resonance imaging study (Dotson and others) (Res) 367

Effects of overnight sleep restriction on brain chemistry and mood in women with unipolar depression and healthy controls (Bernier and others) (Res) 352

Has the time come for clinical trials on the antidepressant effect of vitamin D? (Young) (E) 3

Depressive disorder, major

Alcohol dependence–related increase of glial cell density in the anterior cingulate cortex of suicide completers (Hercher and others) (Res) 281

A meta-analysis examining clinical predictors of hippocampal volume in patients with major depressive disorder (McKinnon and others) (Res) 41

Cascading effects of stressors and inflammatory immune system activation: implications for major depressive disorder (Anisman) (Rev) 4

Magnetic resonance imaging and prediction of outcome in patients with major depressive disorder (MacQueen) (Rev) 343

Optimal use of antidepressants: When to act? (Blier) (Psychopharm) 80

Positive association of the pericentrin (*PCNT*) gene with major depressive disorder in the Japanese population (Numata and others) (Res) 195

Predictors of nonresponse to cognitive behavioural therapy or venlafaxine using glucose metabolism in major depressive disorder (Konarski and others) (Res) 175

Diagnostic imaging

Magnetic resonance imaging and prediction of outcome in patients with major depressive disorder (MacQueen) (Rev) 343

Dissociative disorder

Emotional learning during dissociative states in borderline personality disorder (Ebner-Priemer and others) (Res) 214

Dopamine

Effects of sustained serotonin reuptake inhibition on the firing of dopamine neurons in the rat ventral tegmental area (Dremencov and others) (Res) 223

Glutamate and dopamine components in schizophrenia (Seeman) (C) 143

Drug resistance

Cortical folding in patients with bipolar disorder or unipolar depression (Penttilä and others) (Res) 127

-E-**Emotions**

Amygdala and insula response to emotional images in patients with generalized social anxiety disorder (Shah and others) (Res) 296

Emotional learning during dissociative states in borderline personality disorder (Ebner-Priemer and others) (Res) 214

Emotion-elicited gamma synchrony in patients with first-episode schizophrenia: a neural correlate of social cognition outcomes (Williams and others) (Res) 303

Genotype over diagnosis in amygdala responsiveness: affective processing in social anxiety disorder (Furmark and others) (Res) 30

Environment and public health

Rethinking scientific meetings: an imperative in an era of climate change (Young) (E) 341

-F-**Facial expression**

Emotion-elicited gamma synchrony in patients with first-episode schizophrenia: a neural correlate of social cognition outcomes (Williams and others) (Res) 303

Functional atlas of emotional faces processing: a voxel-based meta-analysis of 105 functional magnetic resonance imaging studies (Fusar-Poli and others) (Rev) 418

High-frequency repetitive transcranial magnetic stimulation to the cerebellum and implicit processing of happy facial expressions (Schutter and others) (Brief) 60

Relation between emotional face memory and social anhedonia in schizophrenia (Harvey and others) (Res) 102

Feedback, biochemical

Moving past the “neuroncentric” perspective: a role for glia in neuropsychiatric disorders (Lai and others) (E) 173

Frontal lobe

Depressive symptoms and brain volumes in older adults: a longitudinal magnetic resonance imaging study (Dotson and others) (Res) 367

-G-**Gastrointestinal tract**

Effects of gut microbiota on the brain: implications for psychiatry (Neufeld and Foster) (C) 230

Gene expression

Expression profiles of schizophrenia susceptibility genes during human prefrontal cortical development (Choi and others) (Res) 450

Gene frequency

Positive association between the *PDLIM5* gene and bipolar disorder in the Chinese Han population (Zhao and others) (Res) 199

Positive association of the pericentrin (*PCNT*) gene with major depressive disorder in the Japanese population (Numata and others) (Res) 195

Genetic variation

Neuregulin 1 genetic variation and anterior cingulum integrity in patients with schizophrenia and healthy controls (Wang and others) (Res) 181

Genome-wide association study

Candidate genes and neuropsychological phenotypes in children with ADHD: review of association studies (Kebir and others) (Rev) 88

Genotype

A new wave in the genetics of psychiatric disorders: the copy number variant tsunami (Joobar and Boksa) (C) 55

Genotype over diagnosis in amygdala responsiveness: affective processing in social anxiety disorder (Furmark and others) (Res) 30

Influence of androgen receptor repeat polymorphisms on personality traits in men (Westberg and others) (Res) 205

Glucose

Predictors of nonresponse to cognitive behavioural therapy or venlafaxine using glucose metabolism in major depressive disorder (Konarski and others) (Res) 175

Glutamic acid

Glutamate and dopamine components in schizophrenia (Seeman) (C) 143

Glutathione

3-Nitrotyrosine and glutathione antioxidant system in patients in the early and late stages of bipolar disorder (Andreazza and others) (Res) 263

Gyrus singuli

Alterations in default network connectivity in posttraumatic stress disorder related to early-life trauma (Bluhm and others) (Res) 187

Reduced cortical folding of the anterior cingulate cortex in obsessive-compulsive disorder (Shim and others) (Res) 443

-H-

Hallucinations

On the neurobiology of hallucinations (Boksa) (E) 260

Structural covariance in the hallucinating brain: a voxel-based morphometry study (Modinos and others) (Brief) 465

Hippocampus

A meta-analysis examining clinical predictors of hippocampal volume in patients with major depressive disorder (McKinnon and others) (Res) 41

Hippocampus and amygdala volumes in patients with borderline personality disorder with or without posttraumatic stress disorder (Schmahl and others) (Res) 289

Reduced amygdala and hippocampus size in trauma-exposed women with borderline personality disorder and without posttraumatic stress disorder (Weniger and others) (Brief) 383

Histones

Dimethylated lysine 9 of histone 3 is elevated in schizophrenia and exhibits a divergent response to histone deacetylase inhibitors in lymphocyte cultures (Gavin and others) (Brief) 232

HIV infections

NeuroAIDS: a watershed for mental health and nervous system disorders (McCombe and others) (E) 83

-I-

Image processing, computer-assisted

Structural covariance in the hallucinating brain: a voxel-based morphometry study (Modinos and others) (Brief) 465

Immune system

Cascading effects of stressors and inflammatory immune system activation: implications for major depressive disorder (Anisman) (Rev) 4

Inflammation

Cascading effects of stressors and inflammatory immune system activation: implications for major depressive disorder (Anisman) (Rev) 4

-J-

Japan

Positive association of the pericentrin (*PCNT*) gene with major depressive disorder in the Japanese population (Numata and others) (Res) 195

Journal impact factor

Bias in the research literature and conflict of interest: an issue for publishers, editors, reviewers and authors, and it is not just about the money (Young) (E) 412

-L-

Learning

Emotional learning during dissociative states in borderline personality disorder (Ebner-Priemer and others) (Res) 214

Lipids

Do serum lipids predict response to clozapine treatment? (Procyshyn and others) (Psychopharm) 168

-M-

Malnutrition

Serum brain-derived neurotrophic factor and peripheral indicators of the serotonin system in underweight and weight-recovered adolescent girls and women with anorexia nervosa (Ehrlich and others) (Res) 323

Memory

Relation between emotional face memory and social anhedonia in schizophrenia (Harvey and others) (Res) 102

Mental disorders

A new wave in the genetics of psychiatric disorders: the copy number variant tsunami (Joobar and Boksa) (C) 55

Effects of gut microbiota on the brain: implications for psychiatry (Neufeld and Foster) (C) 230

Moving past the "neurocentric" perspective: a role for glia in neuropsychiatric disorders (Lai and others) (E) 173

NeuroAIDS: a watershed for mental health and nervous system disorders (McCombe and others) (E) 83

Treatment of comorbid tobacco use in people with serious mental illness (Lising-Enriquez and George) (Psychopharm) 256

Methylation

Dimethylated lysine 9 of histone 3 is elevated in schizophrenia and exhibits a divergent response to histone deacetylase inhibitors in lymphocyte cultures (Gavin and others) (Brief) 232

-N-

Nerve tissue proteins

Neuregulin 1 genetic variation and anterior cingulum integrity in patients with schizophrenia and healthy controls (Wang and others) (Res) 181

Nervous system diseases

NeuroAIDS: a watershed for mental health and nervous system disorders (McCombe and others) (E) 83

Neural pathways

Alterations in default network connectivity in posttraumatic stress disorder related to early-life trauma (Bluhm and others) (Res) 187

On the neurobiology of hallucinations (Boksa) (E) 260

Neuroglia

Alcohol dependence-related increase of glial cell density in the anterior cingulate cortex of suicide completers (Hercher and others) (Res) 281

Moving past the "neuroncentric" perspective: a role for glia in neuropsychiatric disorders (Lai and others) (E) 173

Norepinephrine

Enhancement of the function of rat serotonin and norepinephrine neurons by sustained vagus nerve stimulation (Manta and others) (Res) 272

-O-**Obesity**

Bariatric surgery in patients with bipolar disorder: an emerging issue (Taylor and Misra) (Psychopharm) 336

Obsessive-compulsive disorder

Reduced cortical folding of the anterior cingulate cortex in obsessive-compulsive disorder (Shim and others) (Res) 443

-P-**Personality**

Influence of androgen receptor repeat polymorphisms on personality traits in men (Westberg and others) (Res) 205

Phosphorylation

Association of total tau and phosphorylated tau 181 protein levels in cerebrospinal fluid with cerebral atrophy in mild cognitive impairment and Alzheimer disease (Thomann and others) (Res) 136

Polymorphism, genetic

Candidate genes involved in neural plasticity and the risk for attention-deficit hyperactivity disorder: a meta-analysis of 8 common variants (Forero and others) (Res) 361

Genotype over diagnosis in amygdala responsiveness: affective processing in social anxiety disorder (Furmark and others) (Res) 30

Polypharmacy

A translational research approach to poor treatment response in patients with schizophrenia: clozapine-antipsychotic polypharmacy (Honer and others) (Rev) 433

Psychometrics

Latent deleterious effects of binge drinking over a short period of time revealed only by electrophysiological measures (Maurage and others) (Res) 111

Psychomotor performance

Acute effects of repetitive transcranial magnetic stimulation on attentional control are related to antidepressant outcomes (Vanderhasselt and others) (Res) 119

Neural synchrony in patients with a first episode of schizophrenia: tracking relations with grey matter and symptom profile (Williams and others) (Res) 21

Publication bias

Bias in the research literature and conflict of interest: an issue for publishers, editors, reviewers and authors, and it is not just about the money (Young) (E) 412

-R-**Rats**

Effects of sustained serotonin reuptake inhibition on the firing of dopamine neurons in the rat ventral tegmental area (Dremencov and others) (Res) 223

Enhancement of the function of rat serotonin and norepinephrine neurons by sustained vagus nerve stimulation (Manta and others) (Res) 272

Receptors, androgen

Influence of androgen receptor repeat polymorphisms on personality traits in men (Westberg and others) (Res) 205

-S-**Schizophrenia**

A translational research approach to poor treatment response in patients with schizophrenia: clozapine-antipsychotic polypharmacy (Honer and others) (Rev) 433

Dimethylated lysine 9 of histone 3 is elevated in schizophrenia and exhibits a divergent response to histone deacetylase inhibitors in lymphocyte cultures (Gavin and others) (Brief) 232

Do serum lipids predict response to clozapine treatment? (Procyshyn and others) (Psychopharm) 168

Emotion-elicited gamma synchrony in patients with first-episode schizophrenia: a neural correlate of social cognition outcomes (Williams and others) (Res) 303

Expression profiles of schizophrenia susceptibility genes during human prefrontal cortical development (Choi and others) (Res) 450

Glutamate and dopamine components in schizophrenia (Seeman) (C) 143

Neural synchrony in patients with a first episode of schizophrenia: tracking relations with grey matter and symptom profile (Williams and others) (Res) 21

Neuregulin 1 genetic variation and anterior cingulum integrity in patients with schizophrenia and healthy controls (Wang and others) (Res) 181

On the neurobiology of hallucinations (Boksa) (E) 260

Seasonal affective disorder

Has the time come for clinical trials on the antidepressant effect of vitamin D? (Young) (E) 3

Serotonin

Effects of sustained serotonin reuptake inhibition on the firing of dopamine neurons in the rat ventral tegmental area (Dremencov and others) (Res) 223

Enhancement of the function of rat serotonin and norepinephrine neurons by sustained vagus nerve stimulation (Manta and others) (Res) 272

Serum brain-derived neurotrophic factor and peripheral indicators of the serotonin system in underweight and weight-recovered adolescent girls and women with anorexia nervosa (Ehrlich and others) (Res) 323

Serotonin uptake inhibitors

Impact of acute tryptophan depletion on mood and eating-related urges in bulimic and nonbulimic women (Bruce and others) (Res) 376

Siblings

Increased whole-body auditory startle reflex and autonomic reactivity in children with anxiety disorders (Bakker and others) (Res) 314

Sleep deprivation

Effects of overnight sleep restriction on brain chemistry and mood in women with unipolar depression and healthy controls (Bernier and others) (Res) 352

Sleep disorders

Insomnia and nightmares in posttraumatic stress disorder (Coupland) (Psychopharm) 408

Smoking cessation

Treatment of comorbid tobacco use in people with serious mental illness (Lising-Enriquez and George) (Psychopharm) 256

Social behaviour

Relation between emotional face memory and social anhedonia in schizophrenia (Harvey and others) (Res) 102

Social perception

Functional atlas of emotional faces processing: a voxel-based meta-analysis of 105 functional magnetic resonance imaging studies (Fusar-Poli and others) (Rev) 418

High-frequency repetitive transcranial magnetic stimulation to the cerebellum and implicit processing of happy facial expressions (Schutter and others) (Brief) 60

Startle reflex

Increased whole-body auditory startle reflex and autonomic reactivity in children with anxiety disorders (Bakker and others) (Res) 314

Stress

Cascading effects of stressors and inflammatory immune system activation: implications for major depressive disorder (Anisman) (Rev) 4

Stress disorder, post-traumatic

Alterations in default network connectivity in posttraumatic stress disorder related to early-life trauma (Bluhm and others) (Res) 187

Hippocampus and amygdala volumes in patients with borderline personality disorder with or without posttraumatic stress disorder (Schmahl and others) (Res) 289

Insomnia and nightmares in posttraumatic stress disorder (Coupland) (Psychopharm) 408

Reduced amygdala and hippocampus size in trauma-exposed women with borderline personality disorder and without posttraumatic stress disorder (Weniger and others) (Brief) 383

Suicide

Alcohol dependence-related increase of glial cell density in the anterior cingulate cortex of suicide completers (Hercher and others) (Res) 281

-T-**tau protein**

Association of total tau and phosphorylated tau 181 protein levels in cerebrospinal fluid with cerebral atrophy in mild cognitive impairment and Alzheimer disease (Thomann and others) (Res) 136

Temporal lobe

Depressive symptoms and brain volumes in older adults: a longitudinal magnetic resonance imaging study (Dotson and others) (Res) 367

Transcranial magnetic stimulation

High-frequency repetitive transcranial magnetic stimulation to the cerebellum and implicit processing of happy facial expressions (Schutter and others) (Brief) 60

Trinucleotide repeats

Influence of androgen receptor repeat polymorphisms on personality traits in men (Westberg and others) (Res) 205

Tryptophan

Impact of acute tryptophan depletion on mood and eating-related urges in bulimic and nonbulimic women (Bruce and others) (Res) 376

Tyrosine

3-Nitrotyrosine and glutathione antioxidant system in patients in the early and late stages of bipolar disorder (Andreazza and others) (Res) 263

-V-**Vagus nerve stimulation**

Enhancement of the function of rat serotonin and norepinephrine neurons by sustained vagus nerve stimulation (Manta and others) (Res) 272

Venlafaxine

Predictors of nonresponse to cognitive behavioural therapy or venlafaxine using glucose metabolism in major depressive disorder (Konarski and others) (Res) 175

Ventral tegmental area

Effects of sustained serotonin reuptake inhibition on the firing of dopamine neurons in the rat ventral tegmental area (Dremencov and others) (Res) 223

Vision screening

Visual sensory processing deficits in patients with bipolar disorder revealed through high-density electrical mapping (Yeap and others) (Res) 459

Vitamin D, therapeutic use

Has the time come for clinical trials on the antidepressant effect of vitamin D? (Young) (E) 3
