

Index to Volume 35

The *Journal of Psychiatry & Neuroscience* is indexed according to the medical subject headings established by the National Library of Medicine, US National Institutes of Health.

The title for each article is followed by a code that designates the article's category. The categories used in this volume are listed below.

La Revue de psychiatrie & de neuroscience est indexée par vedette-matière selon la nomenclature de la National Library of Medicine des National Institutes of Health aux États-Unis.

Chaque titre d'article est suivi d'un code indiquant à quelle catégorie l'article appartient. Les catégories utilisées dans ce volume sont les suivantes:

Brief Report (Brief)
CCNP News and Views (CCNP)
Commentary (Comment)
Editorial (E)
Letters to the Editor (Letter)
Psychopharmacology for the Clinician (Psychopharm)
Research Paper (Res)
Review Paper (Rev)

–A–

Adaptation, psychological

Epigenetics in mental illness: Hope or hype? (Albert) (E) 366

Adult survivors of child abuse

Default mode alterations in posttraumatic stress disorder related to early-life trauma: a developmental perspective (Daniels and others) (Comment) (Published at cma.ca/jpn in November 2010; scheduled for print publication in January 2011)

Aggression

Neural responses to emotional and neutral facial expressions in chronically violent men (Pardini and Phillips) (Res) 390

Alzheimer disease

Circulating plasmalogen levels and Alzheimer Disease Assessment Scale–Cognitive scores in Alzheimer patients (Wood and others) (Brief) 59

Amygdala

Differential patterns of initial and sustained responses in amygdala and cortical regions to emotional stimuli in schizophrenia patients and healthy participants (Salgado-Pineda and others) (Res) 41

Hippocampal subdivision and amygdalar volumes in patients in an at-risk mental state for schizophrenia (Witthaus and others) (Res) 33

Reduced amygdalar and hippocampal size in adults with generalized social phobia (Irle and others) (Brief) 126

Analgesia

Effects of trauma-related cues on pain processing in posttraumatic stress disorder: an fMRI investigation (Mickleborough and others) (Res) (Published at cma.ca/jpn in November 2010; scheduled for print publication in January 2011)

Analgesics

Treatment of bipolar disorder with comorbid migraine (Ortiz and Alda) (Psychopharm) 72

Anisotropy

Pervasive microstructural abnormalities in autism: a DTI study (Groen and others) (Res) (Published at cma.ca/jpn in November 2010; scheduled for print publication in January 2011)

White-matter abnormalities in adolescents with long-term

inhalant and cannabis use: a diffusion magnetic resonance imaging study (Yücel and others) (Brief) 409

Anorexia nervosa

Emotion brain alterations in anorexia nervosa: a candidate biological marker and implications for treatment (Hatch and others) (Res) 267

Neural correlates of viewing photographs of one's own body and another woman's body in anorexia and bulimia nervosa: an fMRI study (Vocks and others) (Res) 163

Antidepressive agents

Differential effects of serotonergic and noradrenergic antidepressants on brain activity during a cognitive control task and neurofunctional prediction of treatment outcome in patients with depression (Wagner and others) (Res) 247

Structural changes in the hippocampus in major depressive disorder: contributions of disease and treatment (Malykhin and others) (Res) 337

well of novel antidepressants: running dry, The (Blier) (E) 219

Antipsychotic agents

Clozapine: a distinct, poorly understood and under-used molecule (Joober and Boksa) (E) 147

Hippocampal alterations in ultra-high risk patients are independent from medication and cannabis use (Witthaus and others) (Letter) 215

Hippocampal volume reduction specific for later transition to psychosis or substance-associated effects? (Borgwardt and others) (Letter) 214

Apolipoprotein E

ApoE and cholesterol in schizophrenia and bipolar disorder: comparison of grey and white matter and relation with *APOE* genotype (Vila-Rodriguez and others) (Res) (Published at cma.ca/jpn in November 2010; scheduled for print publication in January 2011)

Attention

Neural correlates of set-shifting: decomposing executive functions in schizophrenia (Wilmsmeier and others) (Res) 321

Attention deficit disorder with hyperactivity

Clinical correlations of grey matter reductions in the caudate nucleus of adults with attention deficit hyperactivity disorder (Almeida Montes and others) (Res) 238

Regional differences in cerebral perfusion associated with the α -2A-adrenergic receptor genotypes in attention deficit hyperactivity disorder (Kim and others) (Res) 330

Structural abnormality of the substantia nigra in children with attention-deficit hyperactivity disorder (Romanos and others) (Brief) 55

Autistic disorder

Autism spectrum disorders, schizophrenia and diagnostic confusion (Woodbury-Smith and others) (Psychopharm) 360

Neural circuitry of emotional face processing in autism spectrum disorders (Monk and others) (Res) 105

Pervasive microstructural abnormalities in autism: a DTI study (Groen and others) (Res) (Published at cma.ca/jpn in November 2010; scheduled for print publication in January 2011)
