Index to Volume 37

The Journal of Psychiatry & Neuroscience is indexed according to the medical subject headings established by the National Library of Medicine, US National Institutes of Health.

The title for each article is followed by a code that designates the article's category. The categories used in this volume are listed below.

Commentary (Comment)
Editorial (E)
Psychopharmacology for the Clinician (Psychopharm)
Research (Res)
Review (Rev)

---A---

Adolescent
Comparison of brain volume abnormalities between ADHD and conduct disorder in adolescence (Stevens and Haney-Caron) (Res) 389

Adult survivors of child abuse
Effects of early-life adversity on white matter diffusivity changes in patients at risk for major depression (Frodl and others) (Res) 37

Aggression
Managing pathologic aggression in people with psychotic disorders (Bourget and Labelle) (Psychopharm) 144

Alzheimer disease
Glutamate system, amyloid β peptides and tau protein: functional interrelationships and relevance to Alzheimer disease pathology (Revett and others) (Rev) (Published at cmaj.ca/jpn in August 2012)

Amygdala
Altered resting-state amygdala functional connectivity in men with posttraumatic stress disorder (Sripada and others) (Res) 241

Amyloid beta-peptides
Glutamate system, amyloid β peptides and tau protein: functional interrelationships and relevance to Alzheimer disease pathology (Revett and others) (Rev) (Published at cmaj.ca/jpn in August 2012)

Anorexia nervosa
Catechol-O-methyltransferase genotype modifies executive functioning and prefrontal functional connectivity in women with anorexia nervosa (Favaro and others) (Res) (Published at cmaj.ca/jpn in October 2012)

Food motivation circuitry hypoactivation related to hedonic and nonhedonic aspects of hunger and satiety in women with active anorexia nervosa and weight-restored women with anorexia nervosa (Holsen and others) (Res) 322

Antidepressive agents
Abnormal hippocampal activation in patients with extensive history of major depression: an fMRI study (Miline and others) (Res) 28
Antidepressant medication to treat anxiety in patients with bipolar disorder (Hassel and MacQueen) (Psychopharm) 360 role for Akt and glycogen synthase kinase-3 as integrators of dopamine and serotonin neurotransmission in mental health, A (Beaulieu) (Rev) 7

Antipsychotic agents
Adverse events associated with switching antipsychotics (Su and others) (Psychopharm) 72
Dexamphetamine selectively increases 40 Hz auditory steady state response power to target and nontarget stimuli in healthy humans (Albrecht and others) (Res) (Published at cmaj.ca/jpn in August 2012)
Differential effects of 3 classes of antidiabetic drugs on olanzapine-induced glucose dysregulation and insulin resistance in female rats (Boyda and others) (Res) 407
Dopamine D2 and D3 binding in people at clinical high risk for schizophrenia, antipsychotic-naive patients and healthy controls while performing a cognitive task (Suridjan and others) (Res) (Published at cmaj.ca/jpn in September 2012)
Drugs for kids: Good or bad? (Albert) 293
Managing pathologic aggression in people with psychotic disorders (Bourget and Labelle) (Psychopharm) 144

Anxiety disorders
Antidepressant medication to treat anxiety in patients with bipolar disorder (Hassel and MacQueen) (Psychopharm) 360

Aspartic acid
Hippocampal abnormalities of glutamate/glutamine, N-acetylaspartate and choline in patients with depression are related to past illness burden (de Diego-Adelino and others) (Res) (Published at cmaj.ca/jpn in September 2012)
Large positive effect of lithium on prefrontal cortex N-acetylaspartate in patients with bipolar disorder: 2-centre study (Hajek and others) (Res) 185

Astrocytes
Glutamine deficiency in the prefrontal cortex increases depressive-live behaviours in male mice (Lee and others) (Res) (Published at cmaj.ca/jpn in October 2012)

Attention
Decreased cognitive control in response to negative information in patients with remitted depression: an event-related potential study (Vanderhasselt and others) (Res) 250
Recruitment of the left hemispheric emotional attention neural network in risk for and protection from depression (Lisiecka and others) (Res) (Published at cmaj.ca/jpn in September 2012)

Attention deficit disorder with hyperactivity
Comparison of brain volume abnormalities between ADHD and conduct disorder in adolescence (Stevens and Haney-Caron) (Res) 389
Differential association between the norepinephrine transporter gene and ADHD: role of sex and subtype (Sengupta and others) (Res) 129
Drugs for kids: Good or bad? (Albert) 293
Management of comorbid Tourette syndrome and attention-deficit/hyperactivity disorder: Are psychostimulants an option? (Pringsheim) (Psychopharm) 432
Parent-of-origin effects of FAS and PDL1M1 in attention-deficit/hyperactivity disorder (Wang and others) (Res) 46

Auditory pathways
Dexamphetamine selectively increases 40 Hz auditory steady state response power to target and nontarget stimuli in healthy humans (Albrecht and others) (Res) (Published at cmaj.ca/jpn in October 2012)

Autistic disorder
Protocadherin α (PCDHA) as a novel susceptibility gene for autism (Anitha and others) (Res) (Published at cmaj.ca/jpn in October 2012)

Awareness
Schizophrenia with preserved insight is associated with increased perfusion of the precuneus (Faget-Agius and others) (Res) 297

---B---

Bipolar disorder
Antidepressant medication to treat anxiety in patients with bipolar disorder (Hassel and MacQueen) (Psychopharm) 360
Drugs for kids: Good or bad? (Albert) 293
Ionotrophic glutamate receptor mRNA editing in the prefrontal cortex: no alterations in schizophrenia or bipolar disorder
Borderline personality disorder

Emotional modulation of motor response inhibition in women with borderline personality disorder: an fMRI study (Jacob and others) (Res) (Published at cma.ca/jpn in October 2012)

Morphometric differences in central stress-regulating structures between women with and without borderline personality disorder (Kuhlmann and others) (Res) (Published at cma.ca/jpn in August 2012)

Psychiatry’s age of enlightenment: optogenetics and the discovery of novel targets for the treatment of psychiatric disorders (Sidor) (E) 4

Structural brain correlates of sensorimotor gating in antipsychotic-naive men with first-episode schizophrenia (Hammer and others) (Res) (Published at cma.ca/jpn in June 2012)

Brain mapping

Altered resting-state amygdala functional connectivity in men with posttraumatic stress disorder (Sripada and others) (Res) 241

Brain functional connectivity during induced sadness in patients with obsessive-compulsive disorder (Fontenelle and others) (Res) 231

Emotional modulation of motor response inhibition in women with borderline personality disorder: an fMRI study (Jacob and others) (Res) (Published at cma.ca/jpn in October 2012)

Impaired interhemispheric connectivity in medication-naive patients with major depressive disorder (Xu and others) (Res) (Published at cma.ca/jpn in April 2012)

Magnetic resonance imaging correlates of first-episode psychosis in young adult male patients: combined analysis of grey and white matter (Ruef and others) (Res) 305

Mapping vulnerability to bipolar disorder: a systematic review and meta-analysis of neuroimaging studies (Fusar-Poli and others) (Res) 170

Overview of potential procedural and participant-related confounds for neuroimaging of the resting state (Duncan and Northoff) (Rev) (Published at cma.ca/jpn in September 2012)

---

Caderhins

Protocadherin α (PCDHA) as a novel susceptibility gene for autism (Anitha and others) (Res) (Published at cma.ca/jpn in October 2012)

Canadian College of Neuropsychopharmacology

Inhibition of the cortex using transcranial magnetic stimulation in psychiatric populations: current and future directions (Radhu and others) (Rev) 369

role for Akt and glycogen synthase kinase-3 as integrators of dopamine and serotonin neurotransmission in mental health, A (Beaulieu) (Rev) 7

Catechol-O-methyltransferase

Catechol-O-methyltransferase genotype modifies executive functioning and prefrontal functional connectivity in women with anorexia nervosa (Favaro and others) (Res) (Published at cma.ca/jpn in October 2012)

Cerebral cortex

Inhibition of the cortex using transcranial magnetic stimulation in psychiatric populations: current and future directions (Radhu and others) (Rev)

Child

Drugs for kids: Good or bad? (Albert) (E) 293

Management of comorbid Tourette syndrome and attention-deficit/hyperactivity disorder: Are psychostimulants an option? (Pringsheim) (Psychopharm) 432

Child abuse, sexual

Working memory processing of traumatic material in women with posttraumatic stress disorder (Landré and others) (Res) 87

Choline

Hippocampal abnormalities of glutamate/glutamine, N-acetylaspartate and choline in patients with depression are related to past illness burden (de Diego-Adelöf and others) (Res) (Published at cma.ca/jpn in September 2012)

Comorbidity

Illness comorbidity as a biomarker? (Anisman and Hayley) (E) 221

Neuropsychological biomarkers support bipolar-spectrum disorders within psychosis cluster (Kaur and others) (Res) 313

Conditioning, psychology

Behavioural therapy based on distraction alleviates impaired fear extinction in male serotonin transporter knockout rats (Nonkes and others) (Res) 224

Conduct disorder

Comparison of brain volume abnormalities between ADHD and conduct disorder in adolescence (Stevens and Haney-Caron) (Res) (Published at cma.ca/jpn in June 2012)

Confounding factors

Overview of potential procedural and participant-related confounds for neuroimaging of the resting state (Duncan and Northoff) (Rev) (Published at cma.ca/jpn in September 2012)

Confounding factors, epidemiology

Illness comorbidity as a biomarker? (Anisman and Hayley) (E) 221

Corpus callosum

Impaired interhemispheric connectivity in medication-naive patients with major depressive disorder (Xu and others) (Res) (Published at cma.ca/jpn in April 2012)

Depression

Glutamine deficiency in the prefrontal cortex increases depressive-live behaviours in male mice (Lee and others) (Res) (Published at cma.ca/jpn in October 2012)

Depressive disorder

Decreased cognitive control in response to negative information in patients with remitted depression: an event-related potential study (Vanderhasselt and others) (Res) 250

Depressive disorder, major

Abnormal hippocampal activation in patients with extensive history of major depression: an fMRI study (Milne and others) (Res) 28
Effects of early-life adversity on white matter diffusivity changes in patients at risk for major depression (Fredl and others) (Res) 37

Hippocampal abnormalities of glutamate/glutamine, N-acetylaspartate and choline in patients with depression are related to past illness burden (de Diego-Adelino and others) (Res) (Published at cma.ca/jpn in September 2012)

Impaired interhemispheric connectivity in medication-naive patients with major depressive disorder (Xu and others) (Res) (Published at cma.ca/jpn in April 2012)

Is depression a disconnection syndrome? Meta-analysis of diffusion tensor imaging studies in patients with MDD (Liao and others) (Res) (Published at cma.ca/jpn in June 2012)

Recruitment of the left hemispheric emotional attention neural network in risk for and protection from depression (Lisiecka and others) (Res) (Published at cma.ca/jpn in September 2012)

Systematic review of the neural basis of social cognition in patients with mood disorders (Cusi and others) (Rev) 154

Dextroamphetamine
Dexamphetamine selectively increases 40 Hz auditory steady state response power to target and nontarget stimuli in healthy humans (Albrecht and others) (Res) (Published at cma.ca/jpn in August 2012)

Diabetes mellitus
Differential effects of 3 classes of antidiabetic drugs on olanzapine-induced glucose dysregulation and insulin resistance in female rats (Boyd and others) (Res) 407

Will lithium damage my kidneys? (Raedler) (Psychopharm) 216

Disease progression
Abnormal synaptic pruning in schizophrenia: Urban myth or reality? (Boksa) (E) 75

Dopamine
Dopamine D2 and D3 binding in people at clinical high risk for schizophrenia, antipsychotic-naive patients and healthy controls while performing a cognitive task (Suridjan and others) (Res) (Published at cma.ca/jpn in September 2012)

Long-term administration of the dopamine D3/D2 receptor agonist pramipexole increases dopamine and serotonin neurotransmission in the male rat forebrain (Chernoloz and others) (Res) 113

role for Akt and glycogen synthase kinase-3 as integrators of dopamine and serotonin neurotransmission in mental health, A (Beaulieu) (Rev) 7

Drug prescriptions
Drugs for kids: Good or bad? (Albert) (E) 293

Electroencephalography
Nonlinear analysis of electroencephalogram at rest and during cognitive tasks in patients with schizophrenia (Carlino and others) (Res) 259

Emotions
Decreased cognitive control in response to negative information in patients with remitted depression: an event-related potential study (Vanderhasselt and others) (Res) 250

Event-related potentials and changes of brain rhythm oscillations during working memory activation in patients with first-episode psychosis (Missomier and others) (Res) 95

Neurophysiological biomarkers support bipolar-spectrum disorders within psychosis cluster (Kaur and others) (Res) 313

Evoked potentials
Decreased cognitive control in response to negative information in patients with remitted depression: an event-related potential study (Vanderhasselt and others) (Res) 250

Event-related potentials and changes of brain rhythm oscillations during working memory activation in patients with first-episode psychosis (Missomier and others) (Res) 95

Neurophysiological biomarkers support bipolar-spectrum disorders within psychosis cluster (Kaur and others) (Res) 313

Facial expression
Functional neural correlates of emotional expression processing deficits in behavioural variant frontotemporal dementia (Virani and others) (Res) (Published at cma.ca/jpn in October 2012)

Fear
Behavioural therapy based on distraction alleviates impaired fear extinction in male serotonin transporter knockout rats (Nonkes and others) (Res) 224

Feeding behaviour
Food motivation circuitry hypoactivation related to hedonic and nonhedonic aspects of hunger and satiety in women with active anorexia nervosa and weight-restored women with anorexia nervosa (Holsen and others) (Res) 322

Frontotemporal dementia
Functional neural correlates of emotional expression processing deficits in behavioural variant frontotemporal dementia (Virani and others) (Res) (Published at cma.ca/jpn in October 2012)

Genetic association studies
Kynurenine 3-monooxygenase polymorphisms: relevance for kynurenic acid synthesis in patients with schizophrenia and healthy controls (Holtze and others) (Res) 53

Genetic predisposition to disease
Differential association between the norepinephrine transporter gene and ADHD: role of sex and subtype (Sengupta and others) (Res) 129

Parent-of-origin effects of FAS and PDLIM1 in attention-deficit/hyperactivity disorder (Wang and others) (Res) 46

Protocadherin α (PCDHα) as a novel susceptibility gene for autism (Anitha and others) (Res) (Published at cma.ca/jpn in October 2012)

Genetic variation
Association between the NMDA glutamate receptor GRIN2B gene and obsessive–compulsive disorder (Alonso and others) (Res) 273

Genome-wide association study
Parent-of-origin effects of FAS and PDLIM1 in attention-deficit/hyperactivity disorder (Wang and others) (Res) 46

Protocadherin α (PCDHα) as a novel susceptibility gene for autism (Anitha and others) (Res) (Published at cma.ca/jpn in October 2012)

Geriatric psychiatry
Prophylaxis and treatment of bipolar disorder in older adults (Allan and Ebmeier) (Psychopharm) 288

Glucose tolerance test
Differential effects of 3 classes of antidiabetic drugs on olanzapine-induced glucose dysregulation and insulin resistance in female rats (Boyd and others) (Res) 407

Glutamine
Glutamine deficiency in the prefrontal cortex increases depressive-live behaviours in male mice (Lee and others) (Res) (Published at cma.ca/jpn in October 2012)
Hippocampal abnormalities of glutamate/glutamine, N-acetylaspartate and choline in patients with depression are related to past illness burden (de Diego-Adelino and others) (Res) (Published at cma.ca/jpn in September 2012)

**Glycogen synthase kinase 3**
role for Akt and glycogen synthase kinase-3 as integrators of dopamine and serotonin neurotransmission in mental health, A (Beaulieu) (Rev) 7

---H---

**Hippocampus**
Abnormal hippocampal activation in patients with extensive history of major depression: an fMRI study (Miline and others) (Res) 28
Hippocampal abnormalities of glutamate/glutamine, N-acetylaspartate and choline in patients with depression are related to past illness burden (de Diego-Adelino and others) (Res) (Published at cma.ca/jpn in September 2012)
Smaller hippocampal volumes in patients with bipolar disorder are masked by exposure to lithium: a meta-analysis (Hajek and others) (Res) 333

**Hunger**
Food motivation circuitry hypoactivation related to hedonic and nonhedonic aspects of hunger and satiety in women with active anorexia nervosa and weight-restored women with anorexia nervosa (Holsen and others) (Res) 322

---I---

**Internal capsule**
Evidence for fractional anisotropy and mean diffusivity white matter abnormalities in the internal capsule and cingulum in patients with obsessive–compulsive disorder (Lochner and others) (Res) 193

---K---

**Kynurenine**
Kynurenine 3-monooxygenase polymorphisms: relevance for kynurenine acid synthesis in patients with schizophrenia and healthy controls (Holtze and others) (Res) 53

---L---

**Life change events**
effects of early-life adversity on white matter diffusivity changes in patients at risk for major depression (Frudol and others) (Res) 37

**Lithium compounds**
Large positive effect of lithium on prefrontal cortex N-acetylaspartate in patients with bipolar disorder: 2-centre study (Hajek and others) (Res) 185
Smaller hippocampal volumes in patients with bipolar disorder are masked by exposure to lithium: a meta-analysis (Hajek and others) (Res) 333
Will lithium damage my kidneys? (Raedler) (Psychopharm) 216

---M---

**Memory, short-term**
Event-related potentials and changes of brain rhythm oscillations during working memory activation in patients with first-episode psychosis (Missonnier and others) (Res) 95
Working memory processing of traumatic material in women with posttraumatic stress disorder (Landré and others) (Res) 87

**Mental disorders**
Inhibition of the cortex using transcranial magnetic stimulation in psychiatric populations: current and future directions (Radhu and others) (Rev) 369
Loose ends of psychiatric research (Alda and Hajek) (E) 367
Psychiatry’s age of enlightenment: optogenetics and the discovery of novel targets for the treatment of psychiatric disorders (Sidor) (E) 4

---N---

**Nerve fibres**
Evidence for fractional anisotropy and mean diffusivity white matter abnormalities in the internal capsule and cingulum in patients with obsessive–compulsive disorder (Lochner and others) (Res) 193

---N---

**Neural pathways**
Altered resting-state amygdala functional connectivity in men with posttraumatic stress disorder (Sripada and others) (Res) 241
Brain functional connectivity during induced sadness in patients with obsessive–compulsive disorder (Fontenelle and others) (Res) 231
Food motivation circuitry hypoactivation related to hedonic and nonhedonic aspects of hunger and satiety in women with active anorexia nervosa and weight-restored women with anorexia nervosa (Holsen and others) (Res) 322
Functional neural correlates of emotional expression processing deficits in behavioural variant frontotemporal dementia (Virani and others) (Res) (Published at cma.ca/jpn in October 2012)
Impaired interhemispheric connectivity in medication-naive patients with major depressive disorder (Xu and others) (Res) (Published at cma.ca/jpn in April 2012)
Is depression a disconnection syndrome? Meta-analysis of diffusion tensor imaging studies in patients with MDD (Liao and others) (Res) (Published at cma.ca/jpn in June 2012)
Long-term administration of the dopamine D3/2 receptor agonist pramipexole increases dopamine and serotonin neurotransmission in the male rat forebrain (Chernoloz and others) (Res) 119
Overview of potential procedural and participant-related confounds for neuroimaging of the resting state (Duncan and Northoff) (Rev) (Published at cma.ca/jpn in September 2012)
Recruitment of the left hemispheric emotional attention neural network in risk for and protection from depression (Lisiecka and others) (Res) (Published at cma.ca/jpn in September 2012)
Reduced neural activity of the prefrontal cognitive control network in risk for and protection from depression (Lisiecka and others) (Res) (Published at cma.ca/jpn in September 2012)

**Neuronal plasticity**
Aberrant cortical gyrification in schizophrenia: a surface-based morphometry study (Palaniyappan and Liddle) (Res) 399

**Neuroprotective agents**
Large positive effect of lithium on prefrontal cortex N-acetylaspartate in patients with bipolar disorder: 2-centre study (Hajek and others) (Res) 185

**Nonlinear dynamics**
Nonlinear analysis of electroencephalogram at rest and during cognitive tasks in patients with schizophrenia (Carlino and others) (Res) 259
Norepinephrine plasma membrane transport proteins
Differential association between the norepinephrine transporter gene and ADHD: role of sex and subtype (Sengupta and others) (Res) 129

--O--

Obsessive–compulsive disorder
Association between the NMDA glutamate receptor GRIN2B gene and obsessive–compulsive disorder (Alonso and others) (Res) 273
Brain functional connectivity during induced sadness in patients with obsessive–compulsive disorder (Fontenelle and others) (Res) 231
Evidence for fractional anisotropy and mean diffusivity white matter abnormalities in the internal capsule and cingulum in patients with obsessive–compulsive disorder (Lochner and others) (Res) 193
Stress response in postpartum women with and without obsessive–compulsive symptoms: an fMRI study (Lord and others) (Res) 78

--P--

Pain
Functional network connectivity of pain-related resting state networks in somatotype pain disorder: an exploratory fMRI study (Ott and others) (Res) (Published at cmaj.ca/jpn in August 2012)

Personality
Is the Gly82Ser polymorphism in the RAGE gene relevant to schizophrenia and the personality trait psychoticism? (Suchankova and others) (Res) 122

Polymorphism, genetic
Association between the NMDA glutamate receptor GRIN2B gene and obsessive–compulsive disorder (Alonso and others) (Res) 273
Catechol-O-methyltransferase genotype modifies executive functioning and prefrontal functional connectivity in women with anorexia nervosa (Favaro and others) (Res) (Published at cmaj.ca/jpn in October 2012)
Is the Gly82Ser polymorphism in the RAGE gene relevant to schizophrenia and the personality trait psychoticism? (Suchankova and others) (Res) 122

Polymorphism, single nucleotide
Differential association between the norepinephrine transporter gene and ADHD: role of sex and subtype (Sengupta and others) (Res) 129
Kynurenine 3-monoxygenase polymorphisms: relevance for kynurenic acid synthesis in patients with schizophrenia and healthy controls (Holte and others) (Res) 53
Parent-of-origin effects of FAS and PDLL1 in attention-deficit/hyperactivity disorder (Wang and others) (Res) 46

Postpartum period
Stress response in postpartum women with and without obsessive–compulsive symptoms: an fMRI study (Lord and others) (Res) 78

Predictive value of tests
Voxel-wise meta-analysis of fMRI studies in patients at clinical high risk for psychosis (Fusar-Poli) (Res) 106

Proto-oncogene proteins c-akt
role for Akt and glycogen synthase kinase-3 as integrators of dopamine and serotonin neurotransmission in mental health, A (Beaulieu) (Rev) 7

Psychotic disorders
Adverse events associated with switching antipsychotics (Su and others) (Psychopharm) 72
Does the salience network play a cardinal role in psychosis? An emerging hypothesis of insular dysfunction (Palaniyappan and Liddle) (Rev) 17
Event-related potentials and changes of brain rhythm oscillations during working memory activation in patients with first-episode psychosis (Missionnier and others) (Res) 95
Is the Gly82Ser polymorphism in the RAGE gene relevant to schizophrenia and the personality trait psychoticism? (Suchankova and others) (Res) 122
Magnetic resonance imaging correlates of first-episode psychosis in young adult male patients: combined analysis of grey and white matter (Ruef and others) (Res) 305
Managing pathologic aggression in people with psychotic disorders (Bourget and Labelle) (Psychopharm) 144
Neuropsychological biomarkers support bipolar-spectrum disorders within psychosis cluster (Kaur and others) (Res) 313
Voxel-wise meta-analysis of fMRI studies in patients at clinical high risk for psychosis (Fusar-Poli) (Res) 106

Publication bias
Publication bias: What are the challenges and can they be overcome? (Joeber and others) (E) 149

Rats
Behavioural therapy based on distraction alleviates impaired fear extinction in male serotonin transporter knockout rats (Nonkes and others) (Res) 224
Differential effects of 3 classes of antidiabetic drugs on olanzapine-induced glucose dysregulation and insulin resistance in female rats (Boyda and others) (Res) 407
Long-term administration of the dopamine D3/2 receptor agonist pramipexole increases dopamine and serotonin neurotransmission in the male rat forebrain (Chernoloz and others) (Res) 113

Receptors, glutamate
Glutamate system, amyloid β peptides and tau protein: functional interrelationships and relevance to Alzheimer disease pathology (Revett and others) (Rev) (Published at cmaj.ca/jpn in August 2012)
Ionotropic glutamate receptor mRNA editing in the prefrontal cortex: no alterations in schizophrenia or bipolar disorder (Lyddon and others) (Res) 267

Receptors, N-methyl-D-aspartate
Association between the NMDA glutamate receptor GRIN2B gene and obsessive–compulsive disorder (Alonso and others) (Res) 273

Research design
Loose ends of psychiatric research (Alda and Hajek) (E) 367
Publication bias: What are the challenges and can they be overcome? (Joeber and others) (E) 149

Risk
Mapping vulnerability to bipolar disorder: a systematic review and meta-analysis of neuroimaging studies (Fusar-Poli and others) (Res) 170

Risk assessment
Dopamine D2 and D3 binding in people at clinical high risk for schizophrenia, antipsychotic-naive patients and healthy controls while performing a cognitive task (Suridjan and others) (Res) (Published at cmaj.ca/jpn in September 2012)
Voxel-wise meta-analysis of fMRI studies in patients at clinical high risk for psychosis (Fusar-Poli) (Res) 106
Will lithium damage my kidneys? (Raedler) (Psychopharm) 216

Risk factors
Illness comorbidity as a biomarker? (Anisman and Hayley) (E) 221

RNA editing
Ionotropic glutamate receptor mRNA editing in the prefrontal cortex: no alterations in schizophrenia or bipolar disorder (Lyddon and others) (Res) 267

Risk factors
Illness comorbidity as a biomarker? (Anisman and Hayley) (E) 221

Satiation
Food motivation circuitry hypoactivation related to hedonic and...
nonhedonic aspects of hunger and satiety in women with active anorexia nervosa and weight-restored women with anorexia nervosa (Holsen and others) (Res) 322

Schizophrenia

Aberrant cortical gyrification in schizophrenia: a surface-based morphometry study (Palaniyappan and Liddle) (Res) 399
Abnormal synaptic pruning in schizophrenia: Urban myth or reality? (Boksa) (E) 75
Adverse events associated with switching antipsychotics (Su and others) (Psychopharm) 72
Dexamphetamine selectively increases 40 Hz auditory steady state response power to target and nontarget stimuli in healthy humans (Albrecht and others) (Res) (Published at cmaj.ca/jpn in August 2012)
Does the salience network play a cardinal role in psychosis? An emerging hypothesis of insular dysfunction (Palaniyappan and Liddle) (Rev) 17
Dopamine D2 and D3 binding in people at clinical high risk for schizophrenia, antipsychotic-naive patients and healthy controls while performing a cognitive task (Suridjan and others) (Res) (Published at cmaj.ca/jpn in September 2012)
Drugs for kids: Good or bad? (Albert) (E) 293
Ionotropic glutamate receptor mRNA editing in the prefrontal cortex: no alterations in schizophrenia or bipolar disorder (Lydon and others) (Res) 267
Is the Gly82Ser polymorphism in the RAGE gene relevant to schizophrenia and the personality trait psychoticism? (Suchankova and others) (Res) 122
Kynurenic acid synthesis in patients with schizophrenia and healthy controls (Holtze and others) (Res) 53
Nonlinear analysis of electroencephalogram at rest and during cognitive tasks in patients with schizophrenia (Carlino and others) (Res) 259
Reduced neural activity of the prefrontal cognitive control circuitry during response inhibition to negative words in people with schizophrenia (Vercammen and others) (Res) 379
Schizophrenia with preserved insight is associated with increased perfusion of the precuneus (Faget-Agus and others) (Res) 297
Structural brain correlates of sensorimotor gating in antipsychotic-naive men with first-episode schizophrenia (Hammer and others) (Res) (Published at cmaj.ca/jpn in June 2012)

Schizophrenia, paranoid

Managing pathologic aggression in people with psychotic disorders (Bourget and Labelle) (Psychopharm) 144

Self-assessment

Schizophrenia with preserved insight is associated with increased perfusion of the precuneus (Faget-Agus and others) (Res) 297

Sensory gating

Structural brain correlates of sensorimotor gating in antipsychotic-naive men with first-episode schizophrenia (Hammer and others) (Res) (Published at cmaj.ca/jpn in June 2012)

Serotonin

Behavioural therapy based on distraction alleviates impaired fear extinction in male serotonin transporter knockout rats (Nonkes and others) (Res) 224
Long-term administration of the dopamine D3/2 receptor agonist primaproxole increases dopamine and serotonin neurotransmission in the male rat forebrain (Chernoloz and others) (Res) 113
role for Akt and glycogen synthase kinase 3-as integrators of dopamine and serotonin neurotransmission in mental health, A (Beaulieu) (Rev) 7

Sex characteristics

Differential association between the norepinephrine transporter gene and ADHD: role of sex and subtype (Sengupta and others) (Res) 129

Social behaviour

Systematic review of the neural basis of social cognition in patients with mood disorders (Cusi and others) (Rev) 154

Somatoform disorders

Functional network connectivity of pain-related resting state networks in somatoform pain disorder: an exploratory fMRI study (Otto and others) (Res) (Published at cmaj.ca/jpn in August 2012)

Stress

Behavioural therapy based on distraction alleviates impaired fear extinction in male serotonin transporter knockout rats (Nonkes and others) (Res) 224
Hippocampal abnormalities of glutamate/glutamine, N-acetylaspartate and choline in patients with depression are related to past illness burden (de Diego-Adelino and others) (Res) (Published at cmaj.ca/jpn in September 2012)
Morphometric differences in central stress-regulating structures between women with and without borderline personality disorder (Kuhlmann and others) (Res) (Published at cmaj.ca/jpn in August 2012)
Stress response in postpartum women with and without obsessive-compulsive symptoms: an fMRI study (Lord and others) (Res) 78

Stress disorders, posttraumatic

Altered resting-state amygdala functional connectivity in men with posttraumatic stress disorder (Sripada and others) (Res) 241
Working memory processing of traumatic material in women with posttraumatic stress disorder (Landre and others) (Res) 87

Synapses

Abnormal synaptic pruning in schizophrenia: Urban myth or reality? (Boksa) (E) 75

Synaptic transmission

Long-term administration of the dopamine D3/2 receptor agonist primaproxole increases dopamine and serotonin neurotransmission in the male rat forebrain (Chernoloz and others) (Res) 113

Tau proteins

Glutamate system, amyloid β peptides and tau protein: functional interrelationships and relevance to Alzheimer disease pathology (Revett and others) (Rev) (Published at cmaj.ca/jpn in August 2012)

Theory of mind

Systematic review of the neural basis of social cognition in patients with mood disorders (Cusi and others) (Rev) 154

Tourette syndrome

Management of comorbid Tourette syndrome and attention-deficit/hyperactivity disorder: Are psychostimulants an option? (Fringsheim) (Psychopharm) 432

Transcranial magnetic stimulant

Inhibition of the cortex using transcranial magnetic stimulation in psychiatric populations: current and future directions (Radhu and others) (Rev) 369
